Cargo flows through
Lithuania

Opportunities for Lithuanian business

- Geographical position is favourable for attracting cargo flows (especially from/to China)
- Opportunity to further develop services in logistics:
 - Kaunas terminal for goods to/from EU (rail, trucks)
 - Klaipėda port for goods to/from EU, Nordics (end stop for rail from China)
 - Postal distribution centre from China to EU, Nordics (rail, planes, trucks)
 - Business development surrounding logistic centres
- Export growth of goods produced in Lithuania
- New airport development
- LNG distribution centre (ships in Baltics)
